

Secondary Sources - A Curated List

Nicola Zollinger, February 2026

This curated collection of secondary sources provides a first approximation of scientific and explanatory literature about the Feldenkrais Method. This list is in no means exhaustive. Rather, it is intended to provide an introduction and inspire the reader to discover more.

The following sources of information provide, in combination with standard academic search engines, a good starting point to discover more scientific articles about the Feldenkrais Method:

Feldenkrais Method Research Journal:
